

Showcase 1: Strongest black-box patch effect

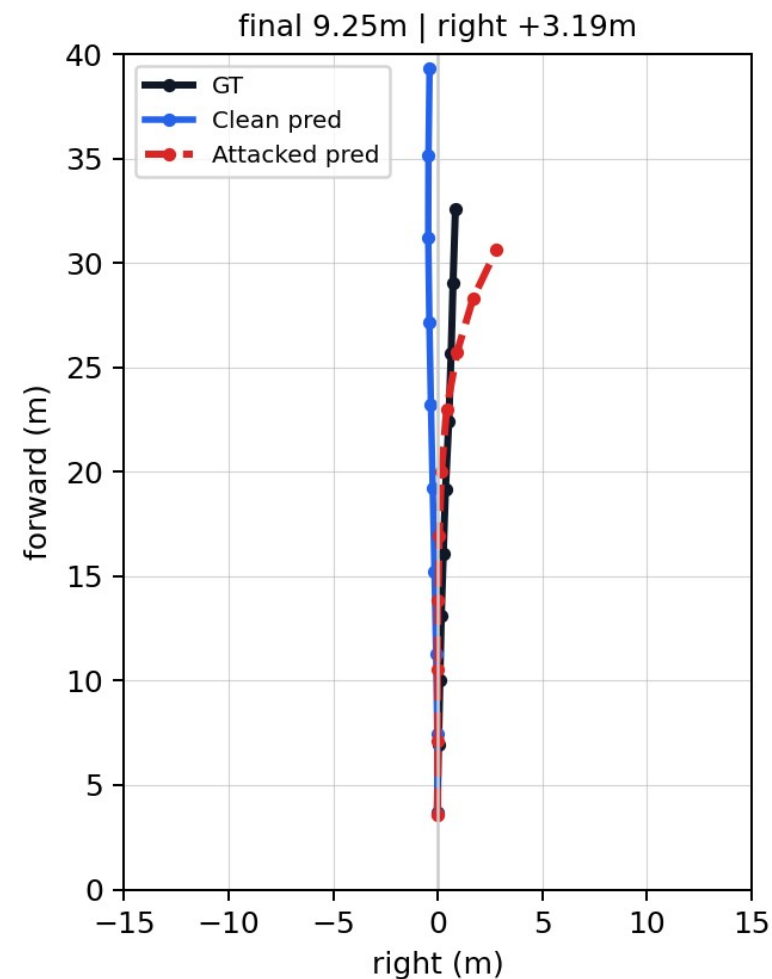

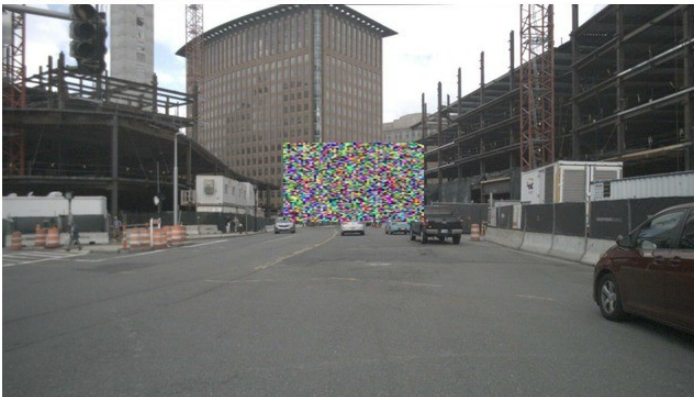

01bbf47b

Front-camera patch; final shift 9.25 m, right shift +3.19 m.

Clean front input

Patched front input

Clean front input | Patched front input

GT / clean prediction / attacked prediction

Attacked prediction shifts right and shortens/slows the planned trajectory.

Showcase 2: Scene-aware placement helps

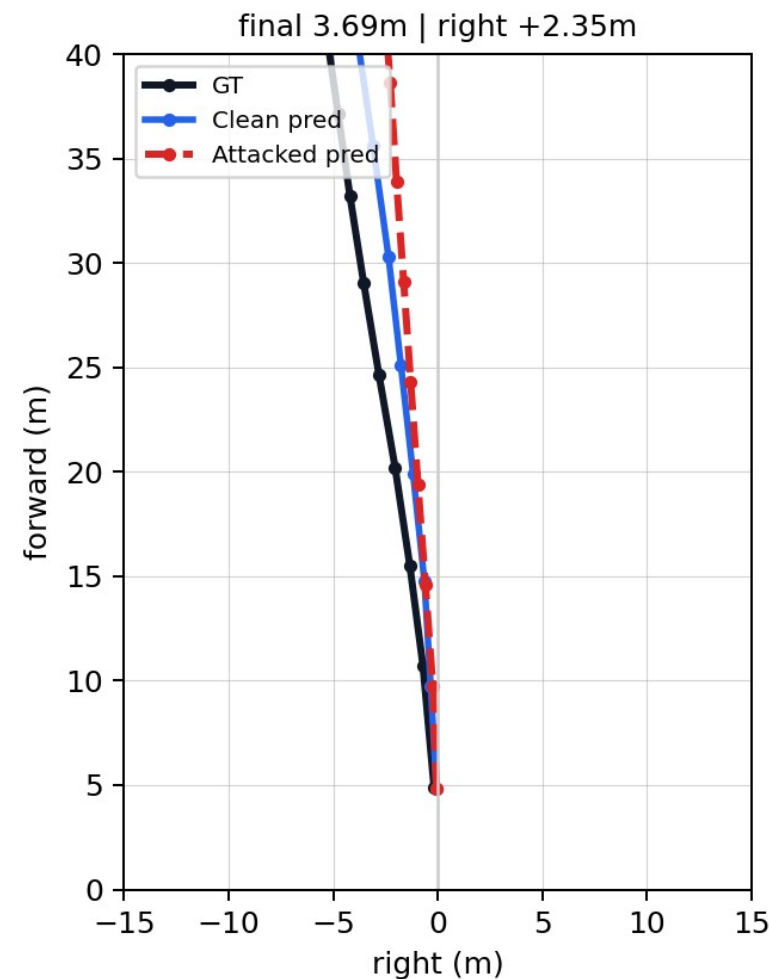

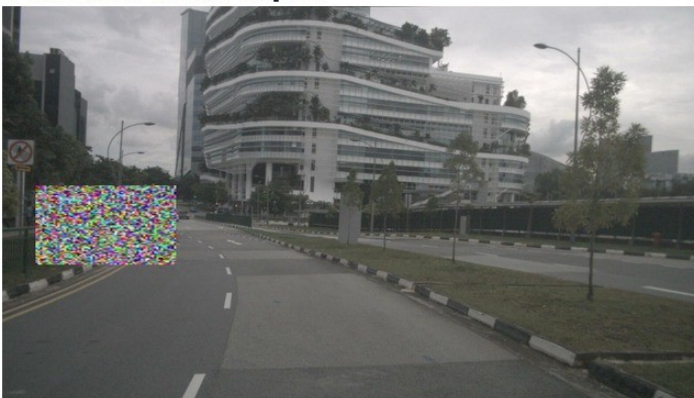

01a7d01c

Patch placed on a salient roadside/construction cue; final shift 3.69 m, right shift +2.35 m.

Clean front input

Patched front input

Clean front input | Patched front input

GT / clean prediction / attacked prediction

Scene-aware placement improves this case from 1.31 m to 3.69 m final shift.
